ORGANIZE A GOOD BOARD.

I. F. McINTYRE GENERAL AGENT OF THE Columbia Building & Loan Association, is in the city for the purpose of organizing a local branch here. The Columbia is the largest association in the country and is increasing rapidly, its plan offering great satisfaction, both to investor and borrower. Instead of writing to the home office, when a loan is desired, the local advising board, orders the loan, providing the security is ample, the branch office in Reno, for instance, having exactly the same powers as the main branch in Denver. Red tape and delay are thus entirely done away with. The rate of interest is 8 per cent per annum, payable in 72 monthly payments. Mr. McIntyre will call on our business men in the next few days and it is to be hoped a large local board will be organized. A branch with several hundred shares has just been formed in Winnemucca. je25lm*

DAILY NEVADA STATE JOURNAL

C. C. POWNING, Editor and Proprietor

MUST FACE THE MUSIC.

According to the census of ten years ago Nevada's population was upward of 60,000. The indications are that the present count will show a decrease of at least 20,000, while it is not improbable that the returns will figure up, or rather down, to a still greater falling off, than that. According to the JOURNAL's estimate, the present population of the State is in the neighborhood of 40,000. It appears quite certain that ours will merit the unenviable distinction of being the only State in the Union whose change is indicated by smaller instead of larger figures than those of ten years ago. The reasons for this it is needless to enumerate, except the principal one, which is the unfriendly National legislation of 1873, against the principal productive and industrial interest of the State. But whatever the cause, we are still confronted with the indisputable and disagreeable fact that a change for the worse has been slowly and steadily progressing ever since, or shortly after, we first assumed the dignity and responsibility of Statehood. This condition of things ought to set our people to thinking. Here they find themselves with a population and revenue resources about equal to a populous ward, in a metropolitan city. With these scanty materials they have to support a State Government as costly as those of commonwealths of ten or twenty times its size. The machinery of their government is as elaborate and as expensive to run as it would be with a dozen times the number of people with proportional property valuation to assist in keeping it in motion. While we are not disposed to take a pessimistic view of the situation, there is no disguising the fact that the time is past when we can afford to bank upon our hopes for such relief as can only be acquired by such judicious adaptation of our expenditures to our means, as will enable us to keep afloat until the turning of a more favorable tide in the direction of our State. It would be the height of folly to employ an engine of 500-horse power to do the work that could be as easily and as well performed by one of a tenth part of that force; and yet that is precisely the way that the government machinery of our State is being run at the present time. The true policy is to reduce our expenses to the lowest possible standard. Abolish half of the State and county offices; lessen the number of counties from fourteen to about seven or eight; do away with the Supreme Court and let the District Judges perform that work at the same or less than the present salaries; pay public officials reasonably well for their services but make them earn their money; stop every possible leak in the public treasuries and finally, and in short, substitute the low for the present high pressure system, which has prevailed in the management of our public affairs ever since the organization of the State Government.

By adopting this course we may be enabled to pull through, maintain our Statehood and save ourselves from hopeless bankruptcy and ruin the inevitable result of the continuance of our present political and financial race.

A DREARY PROSPECT.

If silver shall ever take the place of all pending issues as a subject for discussion at political meetings it will be apt to deprive those oratorical Saturnalias of much of their interest to the seekers for mere amusement. Nor will this tendency be arrested by the wild efforts of Eastern conventions to tangle up the financial issue in a labyrinth of words, and so leave their candidates in the attitude of the acrobat who was advertised to appear "with one leg on both sides of the fence." When speakers feel it their duty to explain heavily the fluctuations in the relation of the precious metals between the era of the Sermon on the Mount and the era of the St. Louis Democratic Convention, and to dwell upon the difference financially, between the days of our Savior and the days of Cleveland, there will be a dry old time at the meetings which erstwhile (erstwhile is a word whose use is endorsed by Bill Nye) echoed with enthusiasm at antes'avery and pro-Union utterances.

When the silver question only shall be discussed, the ladies will, we fear no longer be found up on the front benches outshining the lights and outrivaling the flames and making the rafters ring with the sweet music and the massacred poetry of the campaign glee songs. The female intellect will generally decline to interest itself in the causes which control the price of bar silver. We have in mind a lady who claims to have comprehended in her time the ordinary political issues of the day. She knows a good deal of the science of music and something of Greek literature. She can follow the teachings of Spinoza and Kant. She comprehends in French which names are ladies' and which are of the grosser sex, and thanks to the early teachings of a pious Presbyterian missionary uncle, she is well up in the different shades of total depravity and the nullities of infant damnation, but in the matter of the silver cause she confesses herself mentally and morally an idiot. She does not boil with indignation at the 'Crime of '73," and though she has listened in a sort of mental daze to silver speeches and read "at" silver pamphlets, she is yet not quite clear whether John Sherman was guilty of simony or larceny and is in doubt whether bi-metalism is a gold spoon or a silver cake basket, or both.

It is to be hoped before our next Presidential circus takes the field, the adoption of free coinage will have settled the silver question and we can return to the exciting topic of whether a duty on tin plates and canned mince pies is or is not calculated to advance the greatness of our American Republic.

House Proceedings.

Special to the JOURNAL.

WASHINGTON, July 1 —The House to-day resumed consideration of the Federal Election bill, the pending amendment being that offered by Lehlback, providing that the Chief Supervisor of Elections for each Judicial District of the United States shall take such action as is requisite to secure such supervision in every Congressional District as is provided for by the laws of the United States.

Hemphill, of S. C., offered an amendment providing that the Chief Supervisor shall tabulate and forward to the Speaker of the House to be submitted to the House the results in each Congressional District under his jurisdiction in which this Act has been in force

Mills, of Texas, pointed out the danger which might arise from the application of this law. He supposed the House was Democratic by 25 majority and it was so shown by the certificates of various Governors. Suppose the Supervisor certified to twenty-five majority the other way and the Clerk of the House acted upon this certificate what would be the result? The gentlemen ought not to forget that this was the Anglo-Saxon race that had always been jealous of rights, and bold to assert them, and never counted the cost of doing so. Carnth, of Kentucky, asked what had the Republican party done for the negroes at the close of the war? They were shelterless and it gave them no shelter; they were hungry and they fed them not; they were naked and it clothed them not. When they attempted to save money for a rainy day the Republican party, with its organized freedmen's bank stole the first fruits of their labor. Dolliver (Iowa) believed the time had come when the Republican party must discharge not only its promises but its duty to the American people and he trusted the Republican party would stand as one man for the sanctity of American citizens.

Butterworth presented the Conference report on the Legislative Appropriation bill and the House voted to adhere to its non-concurrence in the Senate amendments regarding the Senator's clerks, etc.

Lodge offered an amendment to the Election bill providing that as soon as the certificates of the Board was made public any person who was a candidate for election may, by motion before a United States Court, having jurisdiction in the district, contest the correctness of the certificates made by the Board, and demand an examination and compilation of returns. Also an amendment providing if there be an appeal from a decision of the United States Board to canvassers of the Circuit Court, the Clerk of the House shall place on the rolls as Representative-elect, the name of the person certified to by said Court as entitled to his seat. The amendments were agreed to.

Hemphill's amendment was then lost. Yeas 137, nays 144. Lehlback, of New Jersey, and Cheadle, of Indiana, (Rep.s) voting with the Democrats.

Buckalew, of Pa., moved to strike out Section 38, which changes the law so as to place the selection of jurors in the hands of the clerks of the Court. Adopted; yeas 140, nays 134.

Tucker, of Virginia, offered an amendment providing for the manner in which applications shall be made for examinations of returns.

Pending the vote the House took a recess.

WASHINGTON, July 1.—The total interest bearing debt is $799,552,772. Total debt, $1,595,586,330. The debt less the cash in the Treasury July 1, 1890, is $988,175,173. Debt less cash in Treasury June 1, 1890, was $1,008,858,898. Decrease during the month, $20,683,725. Decrease since June 30, 1889, $88,471,448.

Fire at Buckley.

Special to the JOURNAL.

TACOMA, July 1.—A serious fire occurred at Buckley, in this county, last night. The loss is between $30,000 and $40,000. C. P. Chamberlain's lumber yards, sheds, offices, houses, tram-car and road-cars were burned. Other buildings were scorched. The fire started at 10 o'clock last night and burned until noon to-day.

Fatal Sun Stroke.

Special to the JOURNAL.

ALBANY, Or., July 1.—Wm. Workmaster, employed at work on the foundation of the new Methodist Church building to-day was prostrated by the heat and will probably die. The thermometer at 1 o'clock registered 91 degrees.

Cornice Maker's Strike.

Special to the JOURNAL.

CHICAGO, July 1.—Five hundred metal cornice makers struck from work to day for an advance in wages. Two firms have given in.

Trial of One of Uncle Sam's Boys.

Special to the JOURNAL.

TUCSON, July 1.—The trial by court-martial of Major Joseph Wham was held to-day. He was charged with having violated articles of war in advising and requesting Captain Miltimore to execute a lease, purporting to be for rent of one room as an office, whereas, in fact, said lease was intended to cover the rent of an entire house occupied by the accused. The evidence showed that it has been customary during the past twenty-five years for Paymaster's to occupy offices in their houses at all frontier towns, thus securing additional safety to the funds and increased service to the Government. The evidence further showed that it was the Quartermarter's duty to rent the office, and that the accused had nothing to do with it, having simply exercised his choice in selecting an office by permission of Captain Wiltimore, and two months later the accused rented the remainder of the house at twenty-six dollars per month. The defense rested the case without producing any witnesses. The court was five minutes in reaching a verdict, and then proceeded to try Major Albert S. Tower, Paymaster, on a similar charge. This trial lasted thirty-five minutes. The findings of the court in both cases have been sent to Washington without being made public.

Senate Proceedings.

Special to the JOURNAL

WASHINGTON, July 1.—The Idaho Admission bill passed without division.

A message was received from the House announcing that it had resolved to adhere to its disagreements to the Legislative Appropriation bill, was presented by Dawes of the Conference Committee, who stated that the House declined to confer further. After a long discussion the Senate refused to recede from its amendments. The result is, that unless the Senate or House backs down, the Legislative Appropriatio bill fails, and a new bill will have to be reported and go through the mill.

Reagan addressed the Senate in favor of the bill introduced by him to prevent the transportation of merchandise in bond through the ports and territory of the United States into Mexico, and to restore that privilege whenever free zone between the two countries was abolished. At the close of his speech the Senate went into executive session and soon adjourned.

Tardy Justice.

Special to the JOURNAL.

SALEM, Or., July 2.—In the case of Sandy Olds convicted last February of murder, on appeal from Multnomah county, the Supreme Court has ordered a new trial. In May 1889 Olds shot and killed Emil Weber on the streets of Portland. In July, 1889, the first trial resulted in a disagreement of the jury. In the following month he was tried and found guilty of murder in the first degree. The case was appealed to the Supreme Court which ordered a new trial. Last January the third trial was held and resulting in his being convicted for a second time of murder in the first degree. For the second time he has appealed to the Supreme Court which has again remanded the case for further trial.

Crooked Bank Officials.

Special to the JOURNAL.

CHICAGO, July 1.—Charles P. Packer, ex-President of the Park National Bank, was arrested yesterday on complaint of the U. S. District Attorney because of some irregularities discovered by the Bank Examiner in the matter of certifying checks for which there were no funds in the bank. He was arraigned to-day and held in $5,000 bonds to appear before the United States Grand Jury. Packer has resigned the Presidency of the bank as has also Cashier Bell.

Both sides of West street for two blocks are lined with these buildings and it is feared that all will be destroyed. The property immediately at stake is valued at $500,000, and is contiguous to the business portion of the city.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind.

Distress After Eating

Sick Headache

Heart-burn

Sour Stomach

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

A. Nadon has fitted up a nice little ball over his shop on Fourth street and will dedicate it by giving a free dance Thursday night. Everybody invited.

Mrs. M. L. Wells, the noted national lecturer, W. C. T. U. will address the public again this evening, July 2d in the Baptist Church. Go and hear her.

See Thos. Barnett's special "settle up" notice, and also read his "selling out" ad. and make a trip to his store and satisfy yourself that he means what he says in regard to closing out his stock at what ever sacrifice. Seeing is believing, and buying goods at his present prices is the best kind of economy.

The committee having charge of the Car of State for the Fourth of July procession request the young ladies who are to represent the different States to call at the residence of Mrs. P. B. Comstock on the Friday morning at 9 o'clock to get their sashes and caps.

Of Course He Will.

Some of our local politicians intend writing to Jimmy Fair to see whether he will stand in for U. S. Senator. We wonder if he will?—Reveille.

Of course he will. All that he has been waiting for is a little encouragement from Austin to decide him to commence shoveling the twenties into the Senatorial hopper. He has the rest of the State all right, but he has been a little dubious about Lander. Assured of his safety there and every voter in Nevada will have to carry a cast iron umbrella for protection against the shower of twenties that will be poured upon them.

Matters in Eastern Nevada.

The Pioche Record, of June 21, says: Messrs. S. V. White and Professor May naid left for Osceola last Tuesday, going first to inspect the Day mine at Royal City. The property is rapidly increasing in value from the large quantities of low grade ore being constantly uncovered, and Mr. White whose influence in that direction is great, will urge the further extension of the coming railroad from a terminus located just north of the town to a point in the valley within two miles of the mine. A matter of twelve miles or so will do it, and the result will be the proper developement of both Bristol and Jackrabbit Districts to the material advantage of this section, as the quantity of low grade ore extracted there is almost unlimited.

Should Be Prosecuted.

There is a census enumerator, in Placer county who should be prosecuted for wilful neglect of duty, and for disobeying his instructions, says the Truckee Republican. This man, we do not know his name, was told the location of several logging camps in Placer county near here and absolutely refused to go to them. There has been no enumerator at Schaffer's mill nor at the Truckee Lumber Co.'s logging camp and several wood camps. There must be at least 100 persons in the district who have not been counted. The same man, instead of doing his duty hired another man to do it in plain violation of the law. This happened at the Summit where he left a lot of blanks and told some one there to count the people and he would be paid for it.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflamation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-swf-y

The Poison Creek Mines.

The Silver City, Idaho Avalanche, speaking of the recent find on Poison Creek, says: The lode is about 16 feet in width, showing ore that assays as high as $364 24 in gold. The quartz is of fine grade, and of a green color, carrying some metallic silver. As yet little prospecting has been done, but from the way prospectors are flocking in, the country will soon be explored. There is no doubt that the mountains to the south of this new district will show up other good lodes.

Idaho Water Decision.

The Supreme Court of Idaho has rendered a decision on the water question, to the effect that the first appropriation of water in a stream in that Territory, being the first in time is the first in right, and is entitled to all the water appropriated, so long as it is for a useful purpose. The decision was rendered in the case of Drake et al. vs. Earhart. Judge Berry rendered a dissenting opinion.

Mormons at a Discount.

Fort Benton, Montana, Press A lot of Mormons, with one hundred head of cattle, five covered wagons and a number of women and children, passed Choteau for Lee's creek, Northwest Territory, on Tuesday last. There is quite a colony of Mormons on Lee's creek. We will make our Canadian cousins a present of all the Mormons in the United States if they want them.

Money and Diamonds on the Fly.

While passing through the Bozeman tunnel, Montana, Thursday, a woman raised a car window and accidentally dropped her purse, which she held in her hand, in the tunnel. The conductor stopped the train and backed up, when the pocket book was found. It contained a good sum of money and valuable diamonds.

Bar Silver.

Silver bullion 1,000 fine is quoted in the New York market at 104 and 104¼ cents per ounce. Had the House of Representatives concurred in the Senate amendments to the Windom bill and the President signed it, silver to-day would be worth just 25 cents per ounce more than it now brings.

A MODEL CANDIDATE.

How a Reno Man Pushes His Claim for the U. S. District Judgeship.

There is no doubt, says the Record-Union, that Peter West, Esq., of Reno, Nevada, is in earnest about securing the appointment of United States District Judge for the District of Nevada. This position was recently made vacant by the death of Judge George M. Sabin. A Washington dispatch gives publicity to the novel method adopted by Mr. West to emphasize his desire for the position, and to acquaint the Senate with himself. Each member of the Senate has received a souvenir, in the form of a cabinet photograph of a man dressed in a suit of store clothes, with a nicely polished silk hat upon his head and an umbrella under his arm, gazing at a knothole in the "dim and distant far away." On the back of this photograph is the following inscription.

"Peter West, attorney-at-law, Reno, Nevada. Graduated from Iowa State University. Candidate for United States District Judge, to fill vacancy in Nevada. Age 49, height 5 feet 10 inches, weight 195 pounds. May 20, 1890.

These paragraphs are accompanied by a letter from Mr. West, in which he invites the Senators to whom they have been addressed, to co-operate in securing him an appointment as United States Judge, and he incloses the photograph in order that they may see what sort of a man they are assisting. This is a novel way of seeking office, but it is not proving any more effective than the orthodox plan. It is, however, economical, saving the expense of a trip to the national capital, and of, perhaps, wearisome stay there, at great cost. It will also, doubtless, strike the Senators most favorably, because it will save them from the persistent button-holing and entreaty which office seekers in propria persona are want to inflict. It is, in fact, not to be doubted that wearied Cabinet officers and members of both Houses of Congress would hail with joy the adoption of this novel innovation of the gentleman from Nevada.

A Strange Legend.

Denver Republican: A strange legend comes to us from the Sioux, who alone can tell the true history of that deadly ambuscade. They say that on the hillock where Custer fell now grows a plant never seen there before—a curious plant with tall, slender leaves, curved in the exact form of a sabre, with edges so sharp as to inflict keen wounds upon the unwary hands, and those who pluck it once soon drop it, so strangely cold and clammy are its leaves. It bears a golden-hued, heart-shaped blossom, and in the center is one small spot of brilliant red, like a drop of blood. The Indians regard it with superstitious awe. They call it "Custer's heart," and cannot be induced to touch it, claiming that the blossom crushed in the hand leaves a blood-red stain impossible to remove.

Farmer Davis on Mowers.

"The Appeal wishes to record its voice against the Buckeye mower. Yesterday the editor rose at 4 o'clock in the morning to cut a field of alfalfa and was spinning along at a nice clattering gait with the machine when the bolt that holds the sent came out and tumbled the rider in among the cogs. The horses ran away, leaving the driver spinning about on his head and quoting passages from Hamlet The team broke into the front yard, and the machine, which kept in action, cut down a line of hedges costing a dollar a yard, thirty-six rose bushes, two dozen young linden trees and a yellow dog, but no grass. 'If you want to have a machine that will hold you up and cut grass don't purchase a Buckeye, it is a thing of the past and no good."

The Water Rights Suit.

In the matter of the petition to adjudicate priorities of water rights under the Act of the Legislature of 1889, declared unconstitutional by Judge Fitzgerald of the District Court, says the Silver State, counsel for petitioners will appeal to the Supreme Court forthwith. The case is one of great importance to ranchers along the Humboldt, and if the Act is not constitutional, doubtless the next Legislature will endeavor to pass an Act establishing rights to the use of water that will stand the constitutional test.

"Raising the Schoolhouse Flag."

Is the title of a full page illustrated poem by Hezekiah Butterworth in the 4th of July double number of The Youth's Companion. This noble poem expresses the sentiments of the many thousands of schoolboys and girls who have been working for a flag to be raised over their own schoolhouses. The name of the school in each State, and that of the successful writer of the essay which won the flag recently offered by The Youth's Companion, are given in this number.

Hotter Than Ever.

The great hot springs on the principal island in Mono lake never boiled so fiercely as they do now. The rocks around their craters are unbearably hot for a radius of many yards, while the great body of water flowing from them is always at the boiling point.

Novel Rat-Trap.

A curious trap at the Patent Office is an imitation rat that has a piece of toasted cheese stuck on the end of a little spear that projects from its nose a short distance. When a real rat comes up to nibble at the cheese the spear jumps out and impales the unfortunate.

REPUBLICAN

State Convention.

OFFICE OF
REPUBLICAN STATE CENTRAL COMMITTEE,
VIRGINIA CITY, Nev., May 20, 1890.

At a meeting of the Republican State Central Committee of Nevada, held this day, it was ordered that a

Republican State Convention

—BE HELD AT—

VIRGINIA CITY,

—ON—

Thursday, Sept. 4, 1890

At 2 o'clock P. M., for the purpose of nominating a full State Ticket, viz:

Member of Congress,
Governor,
Lieutenant Governor,
Judge of the Supreme Court,
Clerk of the Supreme Court,
Secretary of State,
State Controller,
State Treasurer,
Surveyor General,
State Printer,
Superintendent of Public Instruction,
Four Judges of the District Court,
Two Members of Board of Regents of State University.

Also for the appointment of a

State Central Committee.

The basis of representation of the respective counties in the said Convention shall be one delegate for each 50 votes, and one for each fraction of 25 votes or over cast for the Harrison and Morton Electors, aggregating 146 delegates, apportioned as follows:

Churchill County	2
Douglas	5
Elko	16
Esmeralda	8
Eureka	14
Humboldt	9
Lander	7
Lincoln	3
Lyon	9
Nye	4
Ormsby	11
Storey	32
Washoe	18
White Pine	8
Total	146

The several Republican County Central Committees will call a

Primary Election

—Of the People on—

SATURDAY, AUGUST 16, 1890,

For the purpose of electing delegates to the said State Convention the Primary Election to be carried out in compliance with the laws of the State and the instructions of this Committee.

The following test will be required of each and every voter at the said Primary Elections:

"I am a citizen of this State and will support the nominees of the Republican party."

The following resolutions were unanimously adopted:

Resolved, That this committee reaffirms the State and National Republican platform of 1888, including the declaration that "the Republican party is in favor of the use of both gold and silver as money" and that it "condemns all efforts to demonetize silver."

Resolved, That the persistent neglect of Secretary Windom to increase the coinage of silver to the maximum of four million dollars per month, coupled with his attempt to influence Congressional legislation so as to perpetuate silver demonetization, is a shameless violation of the silver plank of the National Republican platform, an attack upon the rights and interests of the miners, farmers and workers of the land, and an act of party perfidy that should call for his retirement from the councils of an Administration which is pledged to help and not to hinder the remonetization of silver.

Resolved, That the Republican party of this State is in favor of free and unlimited coinage of both gold and silver; that it holds to this principle as a tenet of party faith and a test of party allegiance; that it will permit of no abandonment or modification of this doctrine; that let whosoever will prove recreant to the principle of bimetallism it will remain steadfast thereto, and that it invites all voters in Nevada who favor the repeal of the iniquitous interlineated law of 1873 by which silver was demonetized, and who desire the establishment of free and unlimited coinage as the law of the United States of America, to join in electing delegates to a Republican State Convention.
